

To the School Board of Loudoun County.

We, the undersigned, do hereby voice our request and vote for the continuation of Milltown Public School.

We consider the school a valuable asset to our community and feel that it is filling its mission in the primary education of the children who attend.

Some of us attended this school in the past, some are former patrons and all are residents and tax payers of the neighborhood in which the school is located. Therefore, we feel that we have a right to voice our opinion in this matter.
